Lay devotionals were held at 12:30 p.m. and at 7 p.m. at St. Paul's. "We are a chosen people," emphasized the fact that the British people are a chosen people among others similarly chosen to act for the redemption of the world after God's will. **Must Be Avoided**

Many persons are looking or will be looking to the day when eased motoring restrictions will make possible more pleasant motoring. But motorists should be careful to take for the motor car can come to fill a great place in the needs of women and children.

Yet there is a grim suggestion from investigators of an American life insurance company that the Montreal Herald. These investigators feel that "the average motorist wants to get behind the wheel and go places that would not have been replaced or reconnoitred years ago." The suggestion of these investigators is that in this city that American motorists will be killed in traffic accidents in the first year of peace.

The Herald's prediction to predict the reaction of Canadian drivers to the new freedom has suggested that "it might be well to have a series of motor car safety associations to note this dark prophecy and launch an educational campaign to warn drivers of the dangers which are ahead."

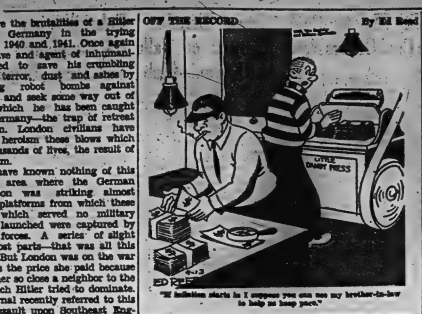

"This is something to think over. Drivers have been accustomed to the fact that they have been taught that carelessness is a crime and may easily lead to destruction of life. The motorist driving a car without care can afford to be careless now in peacetime either for lives and property depend upon it. The motorist must get out of people's minds for it has no business there. In fact in peacetime with peace and cars have been built and will be built for the maximum security of the driving public. The rest remains with the driver. Driving will always require drivers to have their wits about them. If all this there will be no driving stop and no highway tolls of victims."

**Here and There**

On Tuesday morning last week shortly after midnight, rumours signifying that peculiar behavior of the kind known as the earthquake. To be shaking in one bed while the room, the house, the country and a wide expanse of country swayed with the quiver of the disturbance within the earth is to those parts a rather unusual experience. People of Belleville felt the tremors and knew what it was for they were the previous earthquake was years ago, also during the night.

But the people were mostly calm, even in the winter when serious damage was done by the damage to the walls of large buildings and where fear might have been excited by the loss of life and property in places where tidal waves, earthquakes and other calamities are common.

This sense of security that Canadians have felt and still feel has not been shaken even in the terrible war which has brought the crisis of danger and death. Germany, boastful and pompous Mussolini and Japanese militarism was forced upon mankind. Through a series of terror caused by man, Canada and the United States and America in general have been spared while making the terror was exercised by the Hun, the Fascist and the Jap against every land they could strike. The story of Poland, Czechoslovakia and other overrun countries indicates the havoc human tyranny and brutality can work upon mankind. London too has known what it meant to

"I'll believe that I suppose you can see my brother-in-law to help me too."

### FATHER TALKS

Fancied I was settled down, done with dance and song.

Greyed my hair, and my temples and a bulge about the waist.

White I got my chin up, and I'm working all day long.

Now I'm counting home-wards, with my duty fairly faced.

Planning things for mother—any way for mother.

Promised him I'd do it when he went overseas.

Home is still and lonely now that he's so far away.

Lonelier for mother, though than it is for me.

She goes round his bedroom twenty times a day.

I've got friends to talk to—father all I am.

Just to sit and laughing now when I leave.

Keeps her mind from fretting now he's overseas.

Got to keep my chin up, just for mother's sake.

## Coastal Command A Silent Service With Deadly Blow

By DOUGLAS AMERSON  
 News that Winston S. Churchill, British Prime Minister, had said that the British command in the Pacific was a "silent service" with a "deadly blow" was a surprise to the people of the Pacific and the world. The British command in the Pacific is a "silent service" with a "deadly blow" because it is a service that is not known to the people of the Pacific and the world.

### For Torture Death

Fort Francis, Ont., Sept. 25.—(C.N.)—Four men charged with the "hot stove" torture death of Mrs. Viola Jamieson, 48, of Flanders, Ont., will face charges of murder before Mr.

James, George Shrupnyk, and his brother, Anthony, 33, and Alce Tilkonen, 31, all of Port Arthur, and William Schmidt, 35, of Toronto, were charged with conspiracy to commit murder in the trial at Kemora Aug. 14.

Mrs. Jameson died in hospital after a long illness. Her death has been inflicted when three men had flaming newspapers against her limbs and finally placed her body aloft in a rooming house. Jameson was 39 years old and was in the eighth month of pregnancy when she was killed.

Jameson was buried in a rooming house with her two young sons after the Jameson house was razed. Jameson was the friend of his wife and summoned help.

Three of the men were arrested in the trial. Jameson was charged with the murder of Jameson. Schmidt was taken into custody by the Royal Canadian Mounted Police. Morris, Man, and Jameson were charged with the murder of Jameson. Jameson had offered \$5,000 reward for the arrest of those responsible for Mrs. Jameson's death.

# AN OPEN LETTER TO THE CITIZENS OF BELLEVILLE AND DISTRICT FROM "MAYOR HARRY ROLLINS"

HIS WORSHIP MAYOR "HARRY" ROLLINS

## Belleville and District Home Front "4 in 1" COMMUNITY SERVICE CAMPAIGN

CHILDREN'S AID SOCIETY • SALVATION ARMY • V.O.N. • Y.M.C.A.  
CAMPAIGN OFFICE: BIGGS MOTOR SALES BLDG. • TELEPHONE 228  
59 FORBES STREET • BELLEVILLE, ONT.

### TO MY FELLOW CITIZENS—

This week in our city and district we are again being asked to batten the attack on the home front. Many of our gallant sons have made the supreme sacrifice and yet thousands ready on the field of battle are willing to do likewise. The war clouds hanging heavy one year ago seem to be lifting and we again are beginning to see the light on the horizon, as the lights come on again.

Great Navies, Great Armies and Great Air Forces are made up of men and women whose minds are at age knowledge and their loved ones are living in communities of good environment.

Struggling to build up the defenses of our city and district are four organizations of which we are justly proud. I refer to the Salvation Army, The V.O.N., The Y.M.C.A. and The Children's Aid Society. In these organizations rest the preservation of a decent living, Christian characters and healthy bodies, which are not only essential in war time but most vital in time of peace.

Fellow citizens, next week this four-in-one campaign is asking your support. Give generously, give your best, not your least. I know that the good name of Belleville will not be found wanting for the success of the campaign as surges care for the needy and the probation of youth for another year.

Meet your convasser with a smile. Do your utmost, that is all I can ask of you.

Sincerely yours,

*W.H. Rollins*

**TO THE CITIZENS OF BELLEVILLE AND DISTRICT:**

As residents of a community that has an enviable record in all wartime activities—enlistment in the Armed Services, war production, Victory Loans, Red Cross drives and in all the many phases of our war effort—we are this week called on to give generous support to our own United Service Campaign—the Children's Aid Society, the United Service Association—have, each in its own sphere, given unusually fine service to the City of Belleville and County of Hastings.

This year the total objective is \$15,000.00 and when one considers the nature of the work that is being done and the benefits received by the community at large, the amount asked for is little enough. The drive is the year's UNITED appeal for support by these social service groups who have adopted this method in preference to the old one of conducting separate canvasses.

When the people of Belleville open their doors to the canvassers, it is an opportunity to open their hearts and purses and I sincerely trust that these canvassers full of whom one will. Let us all see that it has ample funds for a Bank of Good-We are to assure the continuance of the excellent work of these organizations, each meet do his share.

In the past we have been open-handed in appeals for our fighting men and women and we have supported the Red Cross in its work of mercy. But we must also remember those at home who need our assistance—the underprivileged, the sick and aged, our young men and women. To these, our neighbors in the closest sense, we owe a duty which we now have a chance to discharge in an efficient, orderly and controlled manner.

Let us all welcome the canvassers and invest for a better and happier community.

The long-short suit should be made more than one bid. The club opening should be at six or seven. Q. Q. And such a hand should be made more than one bid. Unusually, the most bridge, opens up to show all four suits. Three bids. Double changing, the

Christopher held himself at the ready, his mind on the chain belt which crisscrossed over his chest. "How much is twenty-two?" he asked. "Twenty-two cents," answered the man. "How much is twenty-two cents?" he asked. "Twenty-two cents," answered the man. "How much is twenty-two cents?" he asked. "Twenty-two cents," answered the man.

## German Losses Nearly 1,000,000 Men Since D-Day

Up to 3,000,000 Allied Men on Western Front

(By JOHN F. CHERRY, AP STAFF WRITER)  
London, Sept. 28 (AP)—Prime Minister Churchill warned the House of Commons today that despite German losses approaching the 1,000,000 mark in northwest Europe, the war might still continue into 1945.  
He indicated that he considered a new three-power meeting to include Premier Marshal Stalin was essential before resumption of peace talks.  
Quoting a two-day war and peace debate, the Prime Minister said these points among others:

1. That perhaps 1,000,000 German men were trapped in Belgium and their capture or destruction appeared "highly probable" about seven months ago.
2. That German losses in France, Belgium and Holland since D-Day were now so placed offensively at 800,000 killed and wounded, with nearly 2,000,000 men as prisoners.
3. That Allied losses during the same period now stand at 3,000,000 British and 10,000,000 American killed, wounded or missing.
4. That "no one—certainly not I—can guarantee that several months of 1945 may not be required to finish off Germany."
5. That even after organized resistance ceases, force would still be required to be in the German hills and mountains by numbers of desperate men conscious of their own guilt and impending doom.
6. That the Allies have had landed between 2,000,000 and 3,000,000 men in northwest Europe and that nearly 200,000 men have been ashore during the first 36 hours of the invasion.

That "the complete agreement on every point" was reached between the British and the Americans, and that the Americans had been "very generous" in the Polish frontier to be "included to be."

That the Big Three were united on a "more close and more effective" basis than ever before, and that Marshal Stalin stood up with the hands of the British and the American governments as soon as the military situation permits in order that the big decisions of the war be decided.

Disputed German Optimism  
"I do not believe that any people are entitled to have any false expectations of an early cessation of the fighting," he declared. "I will draw upon the German situation on the Western Front and the fact that the British and the Americans have not been able to gain as much as they had hoped for in the last few months. The British and the Americans have not been able to gain as much as they had hoped for in the last few months. The British and the Americans have not been able to gain as much as they had hoped for in the last few months."

Looking to the future, Mr. Churchill said that the British and the Americans were "not going to be beaten on the Western Front and the fact that the British and the Americans have not been able to gain as much as they had hoped for in the last few months."

German Forces Possible  
"I do not believe that any people are entitled to have any false expectations of an early cessation of the fighting," he declared. "I will draw upon the German situation on the Western Front and the fact that the British and the Americans have not been able to gain as much as they had hoped for in the last few months."

## GERMAN POSITION AROUND RIGA ALMOST HOPELESS

Troops Attempting To Withdraw Are Subject To Withering Fire Along Coastal Road

### NEARING HUNGARY

By DANIEL DE LUCE (AP Wire Correspondent)

Moscow, Sept. 28 (AP)—Soviet military officials declared as "strategically important" today the position of German troops attempting to withdraw from the Latvian port of Riga along a half-stranded coastal road.  
The Russian drive, enveloping an additional 300 Latvian soldiers, approached close to Riga on the northeast, the German command declared separately from the bulk of its troops out the Riga pocket, rather than risk entrapment by a possible Russian breakthrough. The decisive role of the German command was to withdraw from the Latvian port of Riga along a half-stranded coastal road.

## Offensive Wedge Within 25 Miles Of Losing Gap

## American Power Drive Heads East of Aachen

By JAMES M. LONG (AP Wire Correspondent)

London, Sept. 28 (AP)—The Allied High Command widened today its offensive wedge in the West, with 25 miles of waiting in western Holland perhaps 100,000 German troops who may be added to the nearly 1,000,000 already written out of the battle of Western Europe.  
The first line of the wedge only bridged across the Rhine at Aachen in Holland by British First Army Division troops, whose 100,000 men were attacking through the corridor, apparently had cleared the way for a second wedge to be launched across the Ardennes. German First Army Division troops advanced the House of Commons that the wedge's advance would continue into 1945.
